All In One Solar Street Light

Product Features

- Efficient and fast charge Solar polycrystalline panels high photoelectric conversion rate , fast storage speed
- IP65 waterproof rain proof , lightning proof , corrosion proof
- High density engineering PC lampshade , good transmittance effect , uniform and soft lighting effect
- Standard lamp arm interface , applicable to a variety of arm interface
- The light will automatically dim when no one is there
- Lighting enhancement automatically when someone passes by

Product Advantages

Highlight LED

Solar Charging

Large Capacity

Energy Saving Mod

All in one

Easy Installation

Waterproof

Long Life

Application

Widely used in rural roads, courtyards, villas, parks, plazas , farms, schools, factories highways and other places that require outdoor lighting, no cables, zero electricity energy saving, long service life.

NOTICE: Manual measurement, product specifications and dimensions may have errors, subject to actual receipt.

All In One Solar Street Light

Solar Power Charging

High efficiency solar panels more conducive to the collection.

- **11-13 HOURS/DAY**
11-13 hours/day working time
- **5-7 DAYS**
5-7 rainy days
- **5-7 HOURS**
5-7 Solar Charging time
- **-30°C~60°C**
-30°C-60°C working temp

Technical Parameters

Medel: Sohigh	SLA 80 SLA 120 SLA 150 SLA 180	
Lamp	80W 120W 150W 180W	
Lamp Body Material	Aluminum	
Lens Material	Polycarbonate	
Lighting Time	10-12hrs	

*Product specifications are subject to change without further notice
